

# SAIT SCHOOL OF BUSINESS

## SCHOOL OVERVIEW

SAIT's School of Business is a top-ranked and internationally recognized school with **small classes, strong industry ties** and an array of programs that touch every aspect of the business world, inspiring today's students to be tomorrow's leaders.

Established in 1966, the School of Business has evolved into one of the largest in Western Canada and today consistently earns a spot on the CEOWORLD Magazine's list of best business schools around the globe

Along with certificate and diploma programs, SAIT also offers a four-year bachelor's degree in business administration. Across all programs, our relevant and focused classes are taught by faculty chosen for their real-world experience, while our strong industry ties ensure courses meet the demands of today's business world.

No matter your area of interest — accounting, entrepreneurship, marketing, management and more — we have the practical, applied learning programs that offer the skills needed to help you start a successful career.

Put your education to work with a chance to gain real-world experience before graduation through our work-integrated learning opportunities.

## TRAIN TODAY TO LEAD TOMORROW

Growth opportunities, along with small classes taught by instructors with real-world experience and an impressive graduate employment rate, are among the reasons the School of Business is the second highest ranked business school in Canada in CEOWORLD Magazine's 2023 top 100 list for Best Business Schools in the World.

## HANDS-ON BUSINESS EXPERIENCE

We believe students should learn by doing, not just by listening. That is why our programs offer students the perfect balance between theory and hands-on experience, making SAIT grads job-ready when they leave school.

There's a reason our School of Business programs have such a high employment rate. With many industry partnerships and partnership integrations across our programs, students can access internships, practicums and future job opportunities as part of their programs and when they graduate.

- Applied research
- Capstone projects
- Job shadows
- Practicums
- Student competitions
